

 stemwave®

The Goal of StemWave®

Everyone who's dealing with chronic pain is being held back from something in their life.

We call this the *Life Effect*.

Whether it's enjoying time with your family, being able to get around town without assistance, getting a restful sleep, or even just making it through the workday – chronic pain can really affect your life.

This can be frustrating, embarrassing, and sometimes even depressing.

The most important thing to know is that you are not alone, and there is hope for a better tomorrow.

With StemWave®, our goal is to help you reclaim your life from chronic pain without drugs or surgery and get back to the quality of life you deserve.

So that begs the question...

How do we help get from where you are today, struggling with daily pain, to getting back to doing the things you love?

First, we need to understand the root cause...

The root cause of almost all pain is *inflammation*.

Inflammation causes a variety of symptoms you may be experiencing every day, such as:

- *Pain that seems never ending*
- *Stiffness that limits your mobility*
- *Swelling that starts the cycle of pain all over again*

StemWave® is designed to address these three nasty symptoms and the root cause – inflammation itself – helping you feel and function better than ever before.

How StemWave® Works

StemWave's innovative technology uses harmless yet powerful shockwaves to activate natural healing in your painful joints or muscles.

These are **TARGETED** waves that allow us to **PRECISELY** locate and address the root cause of your pain.

Short-Term Benefits:

- *Reduced inflammation*
- *Reduced pain*
- *Improved range of Motion*

*Patients often report 20-30%+ improvement after their first treatment.

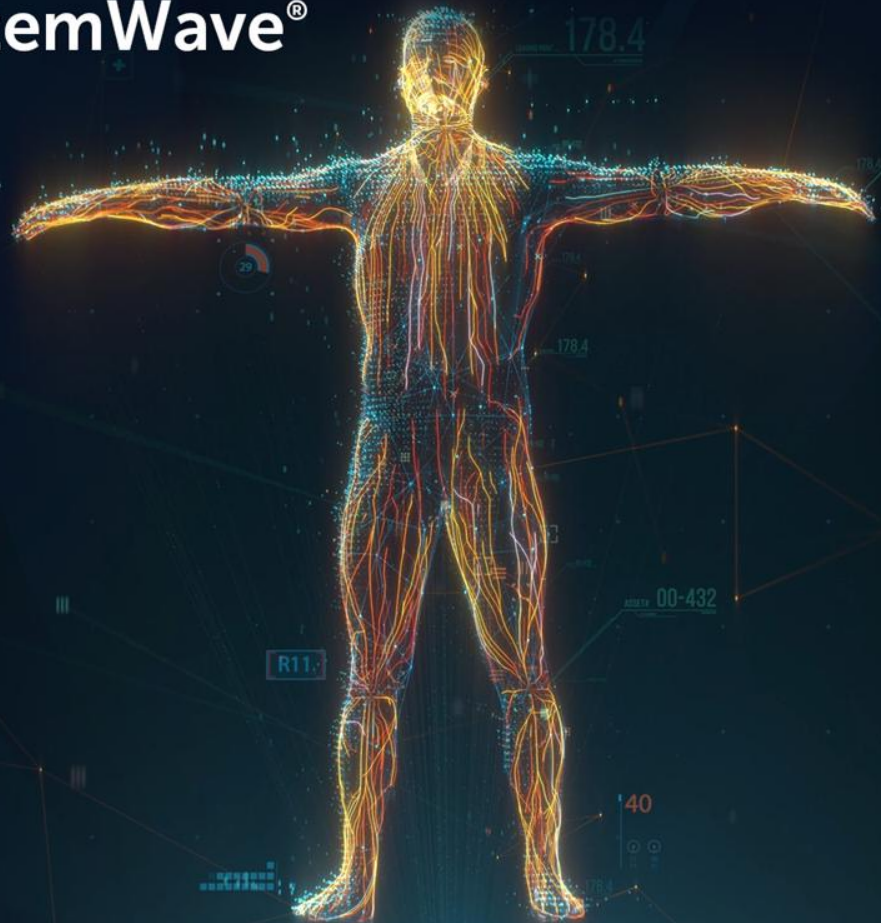

Long-Term Benefits:

- *All short-term benefits **PLUS...***
- *Increased blood flow*
- *Release growth factors*
- *Tissue regeneration*
- *Enhanced collagen synthesis*
- *Break up soft tissue calcification*

Recapping Key Benefits of StemWave®

- Non-invasive & drug-free
- Activates natural healing
- Accelerates healing
- Reduce inflammation
- Improve range of motion
- No negative side effects
- No recovery time

All of which helping you get back to the things you love faster and safer than ever!

StemWave® vs Traditional Methods

- **Medications**

While providing temporary relief, carry the risk of dependency and a broad spectrum of side effects.

- **Injections**

Injections like corticosteroids offer another form of pain relief but are not without issues, and often just “manage” symptoms of pain.

- **Surgery**

The most invasive of the conventional treatments, carries the highest risk. With no guarantee of pain relief post-surgery – sometimes even worsening

What To Expect From Treatment

During your Discovery Visit, we'll provide you with clear answers to the following questions:

- ***What's causing your pain?***
- ***Can we help you?***
- ***How long will it take?***
- ***What will it cost?***

In our modern, comfortable office, I'll review your history so that I have a clear understanding of what you've been going through.

Next, we'll perform a detailed examination to confirm the cause of your pain.

Then, if you qualify, we'll provide a StemWave® visit right then so that you can experience the benefits for yourself.
